Comments: Confirmed with Maint. Mgr that this was a typical week of waste generation. Confirmed that dumpster is emptied 6x per week - Monday thru Saturday. Confirmed that cardboard boxes were separated and placed into the dumpster. Other waste materials were bagged and classified as trash. All survey percentages were conservatively estimated each day - Overall average for the week was $80 \%$ full - $20 \%$ of that capacity used was cardboard boxes and $80 \%$ of that capacity used was trash.
